

Gabriel Commons Pool Rules

Responsibilities of Pool Area Users:

- Residents are responsible for their own safety and that of their children and guests. The Gabriel Commons Homeowners Association is not responsible for accidents.
- Please sign the pool usage log each time you're at the pool. Keeping track of usage helps the Pool Committee administer the pool for the greater good of the community.
- Secure and lock the gate upon leaving if no one else is in the pool area.

For Safety in the Pool Area, We Prohibit:

- Using the pool when signage does not indicate that the pool is available on that date.
- Using the pool before 10 am, before the pool is inspected that day, or after 10 pm.
- Children under 14 unaccompanied by a responsible person age 18 or older.
- Diving headfirst into any area of the pool.
- Food in the pool or drinks in floating cupholders.
- Glass/breakable containers.
- Animals (with the exception of trained & certified service dogs).
- Objects that do not float in the pool (except diving rings or coins; remove after use).

For Pool Cleanliness:

- Take a shower at home (best practice) before going in the pool.
- Stay out of the pool for two weeks if you have diarrhea or symptoms of other diseases communicable by water.
- Contain long hair by using an elastic hair tie, clip, or bathing cap.
- Apply sun block after swimming, not before. The pool has shade in the afternoon.
- Use a special swim diaper on babies or any child not yet reliably potty-trained.
- Clean up your own food, beverages, and containers. Carry out trash and recycling.
- No smoking in the pool area.

In Consideration of Others:

- Use moderate volume of voices and music.
- Be considerate of others when using water toys and/or splashing in the pool.
- Adjust any activity so that others present can also enjoy the pool area.
- Inflatable or other pool floats should not exceed 5' X 2.5' in size.
- Check that everyone is out of the pool area before locking the gate when you leave.

Enjoy the pool safely and considerately!
